

Training Opportunities

EMS Medical Disaster Response Training Conference

Region 7 sponsors scenario-based medical disaster re-sponse training using the Region's five Human Patient Simulators (HPS).

HPS scenarios include:

- An adult in respiratory distress due to IED exposure
- An adult with profuse bleeding due to IED injury
- A child in respiratory distress in IED proximity
- An adult with nerve agent exposure
- An adult with chemical exposure causing blistering

Intended Audience: EMT-Specialist and Paramedics
